Venice, July 23. *N. S.*

THE Obsequies of the late Doge were performed the 12th instant with great Solemnity; and 41 Noblemen being chosen in the usual manner to Elect the new Doge, they shut themselves up in the Palace, and this day by unanimous Consent made choice of Signior *Alouisio Mocenigo*; The first that gave his Vote for him being the Procurator *Dona*, one of his Competitors, whereby he gained much Applause. The new Doge has taken Possession of this Dignity, and the Publick Ministers here have paid him their Compliments on this occasion. The Letters from *Rome* give an account, that the *Venetian* Ambassador has obtained a Promise from the Pope, that at the next Promotion he will make one Cardinal at the Recommendation of this Republick; Two Cardinals are then to be likewise made at the Recommendation of the Ctowns of *Poland* and *Portugal*. The Ships called the St. *Andrew*, and the *Venetian Merchant*, Capt. *Robinson* Commander, arrived here this week from *London*. They write from *Dalmatia*, that General *Antonio Mocenigo* has viewed the *Venetian* Frontier Towns in those Parts, and has given Directions for repairing and improving their Fortifications.

Warsaw, July 15. Divers Persons of Quality are gone from hence to attend the King of *Poland* in *Livonia*. The Forces of the Crown have left their Quarters, and part of them are marching to *Prussia*, and the rest to *Podolia*.

Mittaw, July 16. The King of *Poland* arrived here the 14th Instant from *Warsaw*, being accompanied only by 2 or 3 Persons of Quality. Duke *Ferdinand* of *Courland* received him at the Castle Gates, and he was saluted by a triple discharge of our Cannon. In the evening the King made a Visit to the Dutchess of *Courland*, and yesterday he visited the young Duke; and went this day, accompanied by Duke *Ferdinand*, to the Camp in *Livonia*.

From the Saxon *Camp near* Riga, July 17. The King of *Poland* arrived here yesterday; He viewed the *Dunamunder* Fort, and afterwards held a Council of War. This day the Forces were drawn up in a Line, reaching from the said Fort along the *Dwina* to the Shore, opposite to *Jonferenhoff*, and the King took a Review of them. Divers Boats are got together, in order, as is said, to lay a Bridge over the *Dwina*. The *Swedes* in the mean time are raising Batteries to hinder our passing the River.

Copenhagen, July 27. The *Swedish* Fleet having joined the *English* and *Dutch* Squadrons off *Landscroon*, they came on the 20th Instant to an Anchor within less than 3 miles of this Place, and the night following began to Bombard our Fleet, (which was retired into the Harbour, and lay under the Cannon of our Cittadel,) and they fired about 130 Bombs, of which 'tis said only five fell in the *Danish* Ships; One of these fell in the *Danish* Admiral, but had no effect by the Boldness of one of the Seamen, who put out the Fuzee by smothering it with his Coat; and another falling in the *Danish* Ship called the *Electoral Prince*, two Seamen took it up in their hands and threw it into the Water; Which Actions Count *Guldenleew* the *Danish* Admiral immediately Rewarded, by making these Seamen Officers. The *Danes* at the same time fired from several Bomb-Ketches, and from a great flat-bottom'd Vessel which lay before their Fleet with divers Pieces of great Cannon planted thereon; but the Execution was not great on either side. Of the *Danes*, about 7 or 8 Men killed, and 10 wounded. On the 21st, several *Danish* Frigats were sent out, who exchanged some Guns with the *Swedish* Cruizers; and that day the *Danes* fitted out two other great flat-bottom'd Vessels, and planted thereon divers whole Cannon. On the 22d, the *Swedes* offered to land some Men at a Place called *Old Warthan*, about half a mile from hence, but found the Coast so well guarded, that they presently went off again; The 23d, some *Swedes* came ashore at *Schawshafet*, a mile and half from this Place towards *Elsenore*, but did not long continue there, retiring to their Boats, but six of their Men were taken Prisoners by the Country People; 'Tis thought the *Swedes* did this only to amuse and alarm us. The 24th, their Fleet sailed back to the Isle of *Ween*, and anchored before *Landscroone*; The *Danish* Fleet continues in our Harbour, having before them the three large flat-bottom'd Vessels above-mentioned, on each of which are placed 40 great Guns, and being besides defended on the left by the Castle, and on the right by the Fort newly built there. On the 25th, several Frigats and Bomb-Ketches came over the Flats of *Malmoe*, between the Isle of *Saltholm* and the Coast of *Schonen* to the Isle of *Amack*, where they anchored; And being yesterday reinforced by 18 Frigats and 2 Bomb-Ketches, they came nearer to this Place, and last night threw about 150 Bombs into the Town, the greatest part of which fell in that part of the Town which is called *Christians Haven*, but the Damage they did was inconsiderable. Their Fleet lies now near this Place, and 24 of their Frigats are advanced within a small distance of the new Fort, before which we have two great flat-bottom'd Vessels with heavy Cannon.

Vienna, July 21. The Emperor intends to go to *Nieustad* about eight or ten days hence with the Empress, and the King and Queen of the *Romans*, but the Arch-Duke and Arch-Dutchesses will continue at the Palace of *Favorita*. Count *d'Aversberg* is arrived here from *England*.
